# 6 STEPS TO START DRAWING

---

for total beginners

## ABOUT ME & YOU

---

Hi, my name is Dagmar, and I love drawing, painting, and creativity. I enjoy creating, and I'm very happy when the people around me are creative too.

So here's a very simple guide to help you start drawing again. You'll begin right from the basics: with lines.

Grab your pencil, find a quiet place and start drawing.

Soon, you'll rediscover your creative spirit and regain your forgotten ability to pursue your dreams and be as playful as the child you once were.

So see you there!
